REASONS FOR ALLOWANCE

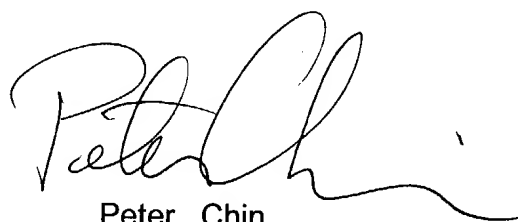

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/4/2004 has been entered.
2. The following is an examiner's statement of reasons for allowance: Schroeder discloses in columns 13 and 14 in reference to Reaction 4, a polysiloxane copolymer in which R_4 of ethylenically monomer b is hydrophobic or contains hydrophobic substituent. $R_4 = Z-R_6-Y$: Z is aryl, CH_2 , $COO-$, $CONH-$, $-OH$ or any radical that is capable of bridging R_6 to the vinyl backbone of the polymer. $Y = H$, $-NR_7R_8R_9$. At least one of $R_6R_7R_8R_9$ is a C8 or higher aliphatic hydrocarbon, which means that this monomer is hydrophobic. The present claims patentably define over Schroeder et al in that there is no disclosure or suggestion in Schroeder et al that the hydrophobic monomer be at least 15% of the total monomer weight of the copolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
